

Google Meet

Next half term, the Year 5 team are planning to deliver **live lessons** each week for RAID and Maths. These lessons will form part of your child's essential learning and will provide the children with the opportunity to engage with their teacher, interact with their peers and allow us to address any misconceptions the children may have in their learning. We hope this will also take the pressure of you as parents. This will give you some time to catch up on work or grab a cup of tea or coffee.

The lessons will take place at the same time each week and a member of the team will contact you by phone if your child does not attend the lesson. Please familiarise yourself with the timetable below and check which group your child will be working in. We will also be running weekly intervention sessions for children who may have found the work tricky that week, these will change weekly based on feedback. Please check your Google Timetable and we will also contact you to let you know if your child has a specific intervention.
