

Dear Parents and Carers,

Study books for your children to collect from school

To support your child in their home schooling we have purchased CGP work books for your child to undertake at home.

Every child in Y2 to Y6 will have a

Maths - Year X Targeted Question Book
Comprehension - Year X Targeted Question Book
Grammar, punctuation and spelling - Year X Targeted Question Book

We are aware that some families in Y6 have already purchased these books. We shall add a credit for the amount paid to your SCOPAY account.

These study books are useful because they cover the National Curriculum for the year group that your child is in.

The content will provide parents with an understanding of what their child should know, and be able to do, by the end of this academic year.

We ask that children wait until their teacher informs them which sections they should undertake before writing in the books.

These books are not to replace our current remote provision on Google Classroom, but are intended to support the learning. We aim to utilise these workbooks during the remainder of lockdown, during any further periods of isolation that your family group may have and for weekly home learning.

It will also enable children to have some time away from their screens!

We hope your child enjoys using these books and gains in their learning too.

These books are currently in school and can be collected from the main office when you are on your daily walk. The office is open from 9:30 to 2:30 daily during this week. It will be closed next week due to half term.

If your child is in school during this week then we shall give them the work books.

Yours sincerely,

T G Newton, Headteacher
